# What are finishes?

The outermost layer of a final product, made to your specification. Our finishes, while vast, can break up into four categories.

## Fabric

Tackable  
1000+ options  
Carnegie  
DESIGNTEX  
maharam  
kvadrat  
Knoll  
Guilford of Maine

## Paint

Factory-applied  
Color-matching  
*SHERWIN*  
*WILLIAMS.*

## Print

Custom artwork  
300dpi

## Copolymer

Highly durable  
Colors & wood grains  
KYDEX

### Product identification

Conwed has been around long enough that our finishes have developed their own reputations.

- |                |   |
|----------------|---|
| Respond Series | ▸ <u>Wrapped in designer textiles</u>                     |
| New Dimensions | ▸ <u>Finished in custom paint</u>                         |
| Acoustic Art   | ▸ <u>Custom-printed image</u>                             |
| Metro Rebound  | ▸ <u>Copolymer thermoformed around the face and sides</u> |

# Fabric

## Respond Series

Carnegie DESIGNTEX maharam kvadrat Knoll Guilford of Maine

**So your panels can match  
your mood boards.**

# Paint

## New Dimensions

*SHERWIN  
WILLIAMS®*

**Paint your projects however  
you please, no hue is off-limits.**

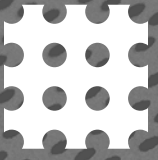

# Custom print

Acoustic Art

Recreate a work of art, use your own  
logo, or create a panoramic display.  
Make your project truly unique.

# Copolymer

## Metro Rebound

### KYDEX

Custom colors and woodgrains are all available on a material strong enough to take a stray soccer ball.

**Note ►** This material can be added underneath fabric. Giving you the look of designer textiles, and the strength of copolymer.

# Now let's see them in action.

Here are some recent examples of each finish looking its best. See more of our work at [conwed.com](https://conwed.com)

# Stories on High

Winner of the CISCA  
Construction Excellence 2024 Award

**CISCA**  
Ceilings and Interior Systems  
Construction Association

- Product** ▶ Eurospan | Ceiling
- Finish** ▶ Classic Black
- Mounting** ▶ Perimeter & midseam track

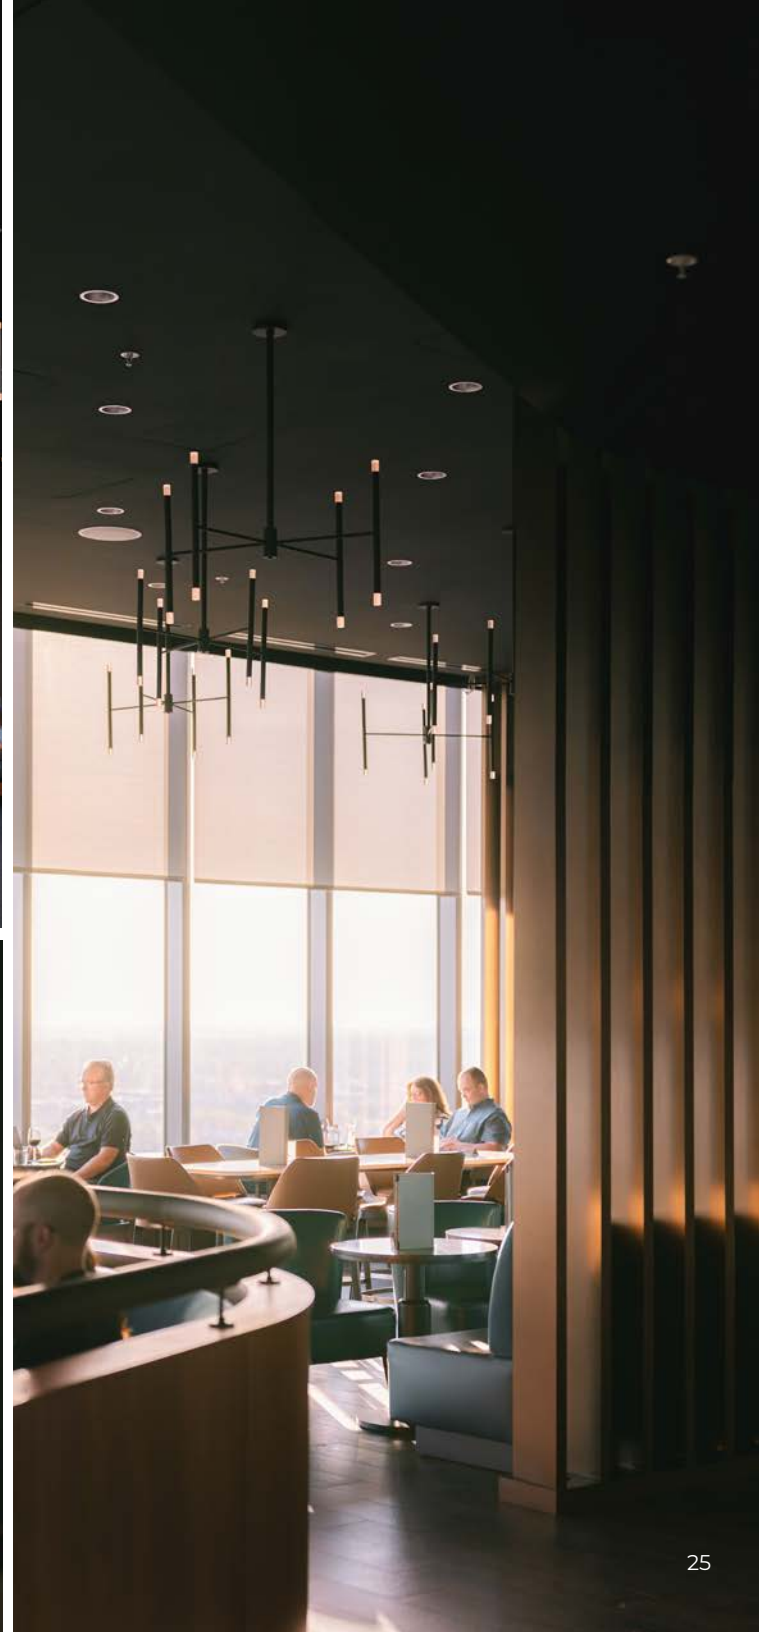

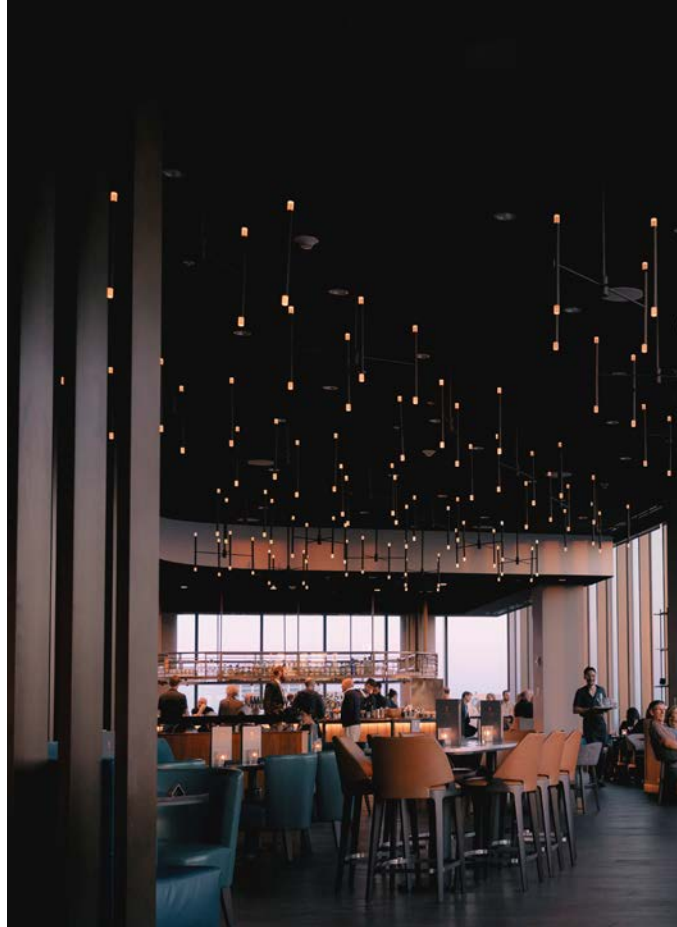

Aiming to be the epitome of swanky bars, Stories on High needed a ceiling system that could maintain the ambience, and keep down the noise for its patrons. Spanning the entire space, Eurospan in Classic Black was used to create a seemingly invisible ceiling that fades into nothing after sundown.

- Eurospan's Classic Black was a perfect fit for hiding midseams and extrusions throughout the ceiling.

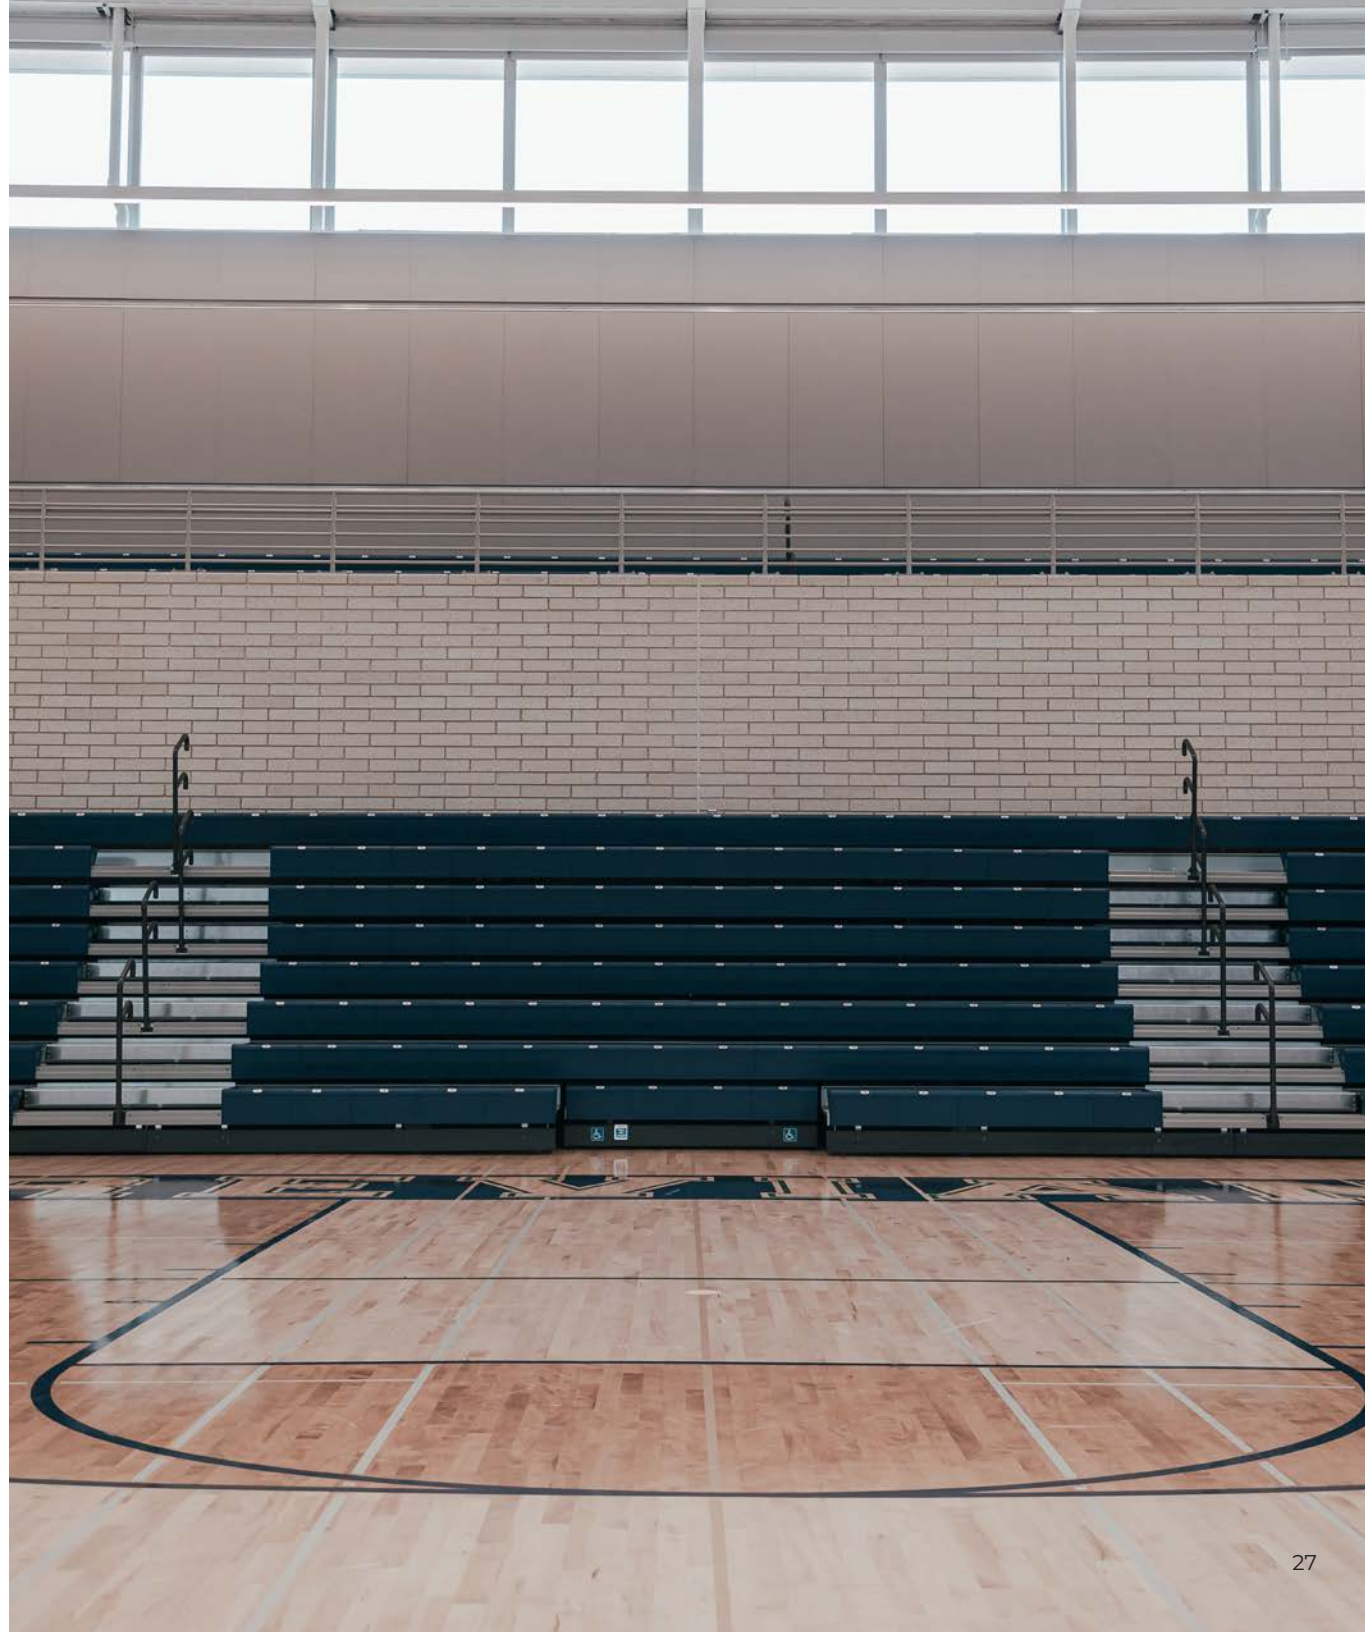

# New Trier High School

**Products ▶** Wall panels  
Fabric A & IR  
Respond Series  
Copolymer  
Metro Rebound  
Steel Gray

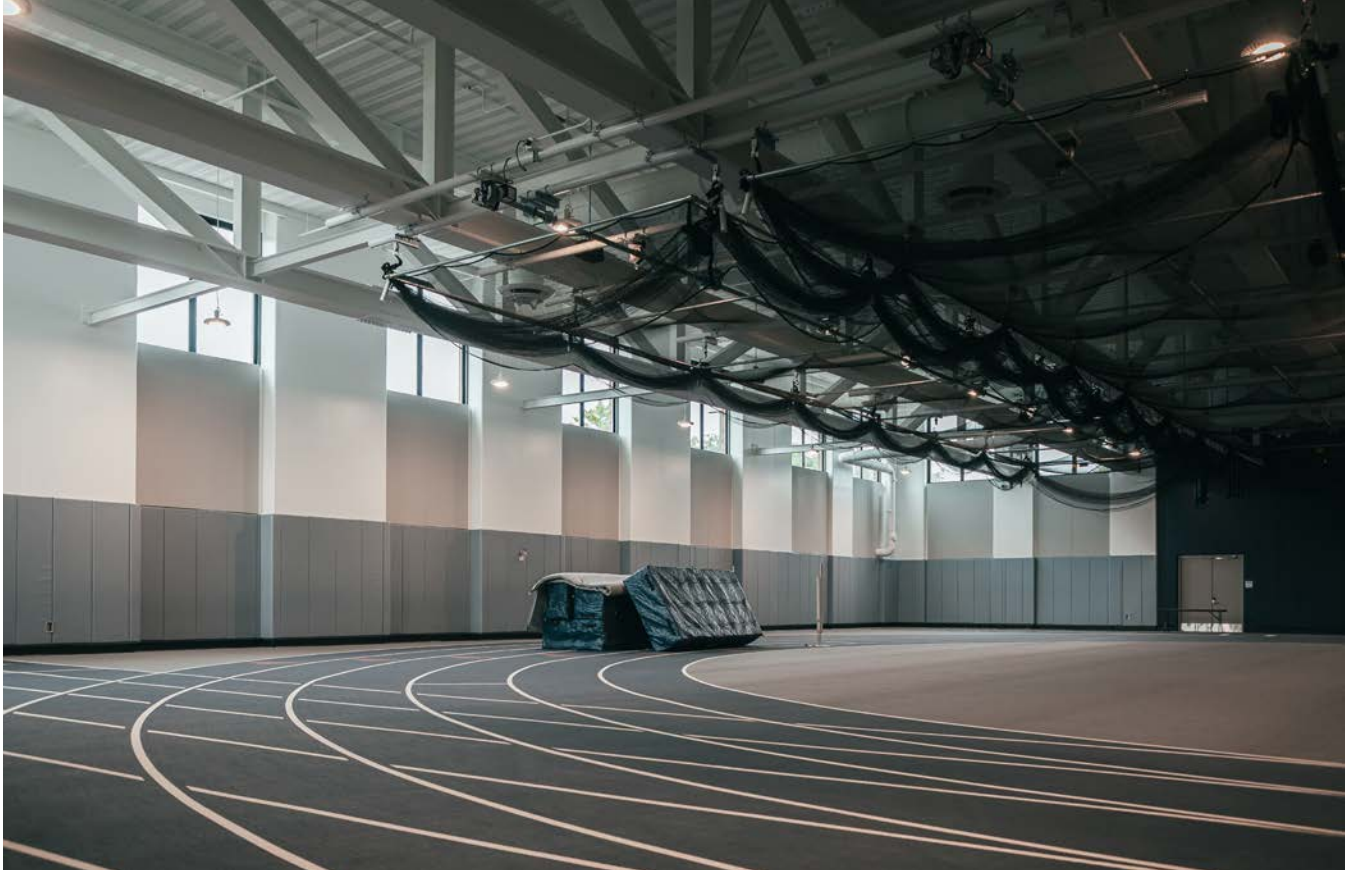

## Picture perfect framing

This school installed their fabric wall panels within a large frame, giving them a more defined and intentional space. Similarly, copolymer panels are offset past wall edges creating a clean look in the gymnasium.

# M1 Concourse

- Products** ▶ Clouds | Paint  
New Dimensions  
Custom mounting  
application
- Wall panels | Print  
Acoustic Art  
Z-bar to Z-bar
- Ceiling panels | Copolymer  
Metro Rebound  
Z-bar to Z-bar

**The event space at M1 needed a dynamic, high-performing ceiling, that could be easily accessed by the operations team. Each cloud is hung on a custom-engineered mounting solution developed by Conwed.**

In the garages lining the race track, custom-printed panels can be found as décor and copolymer ceiling panels protect the working space.

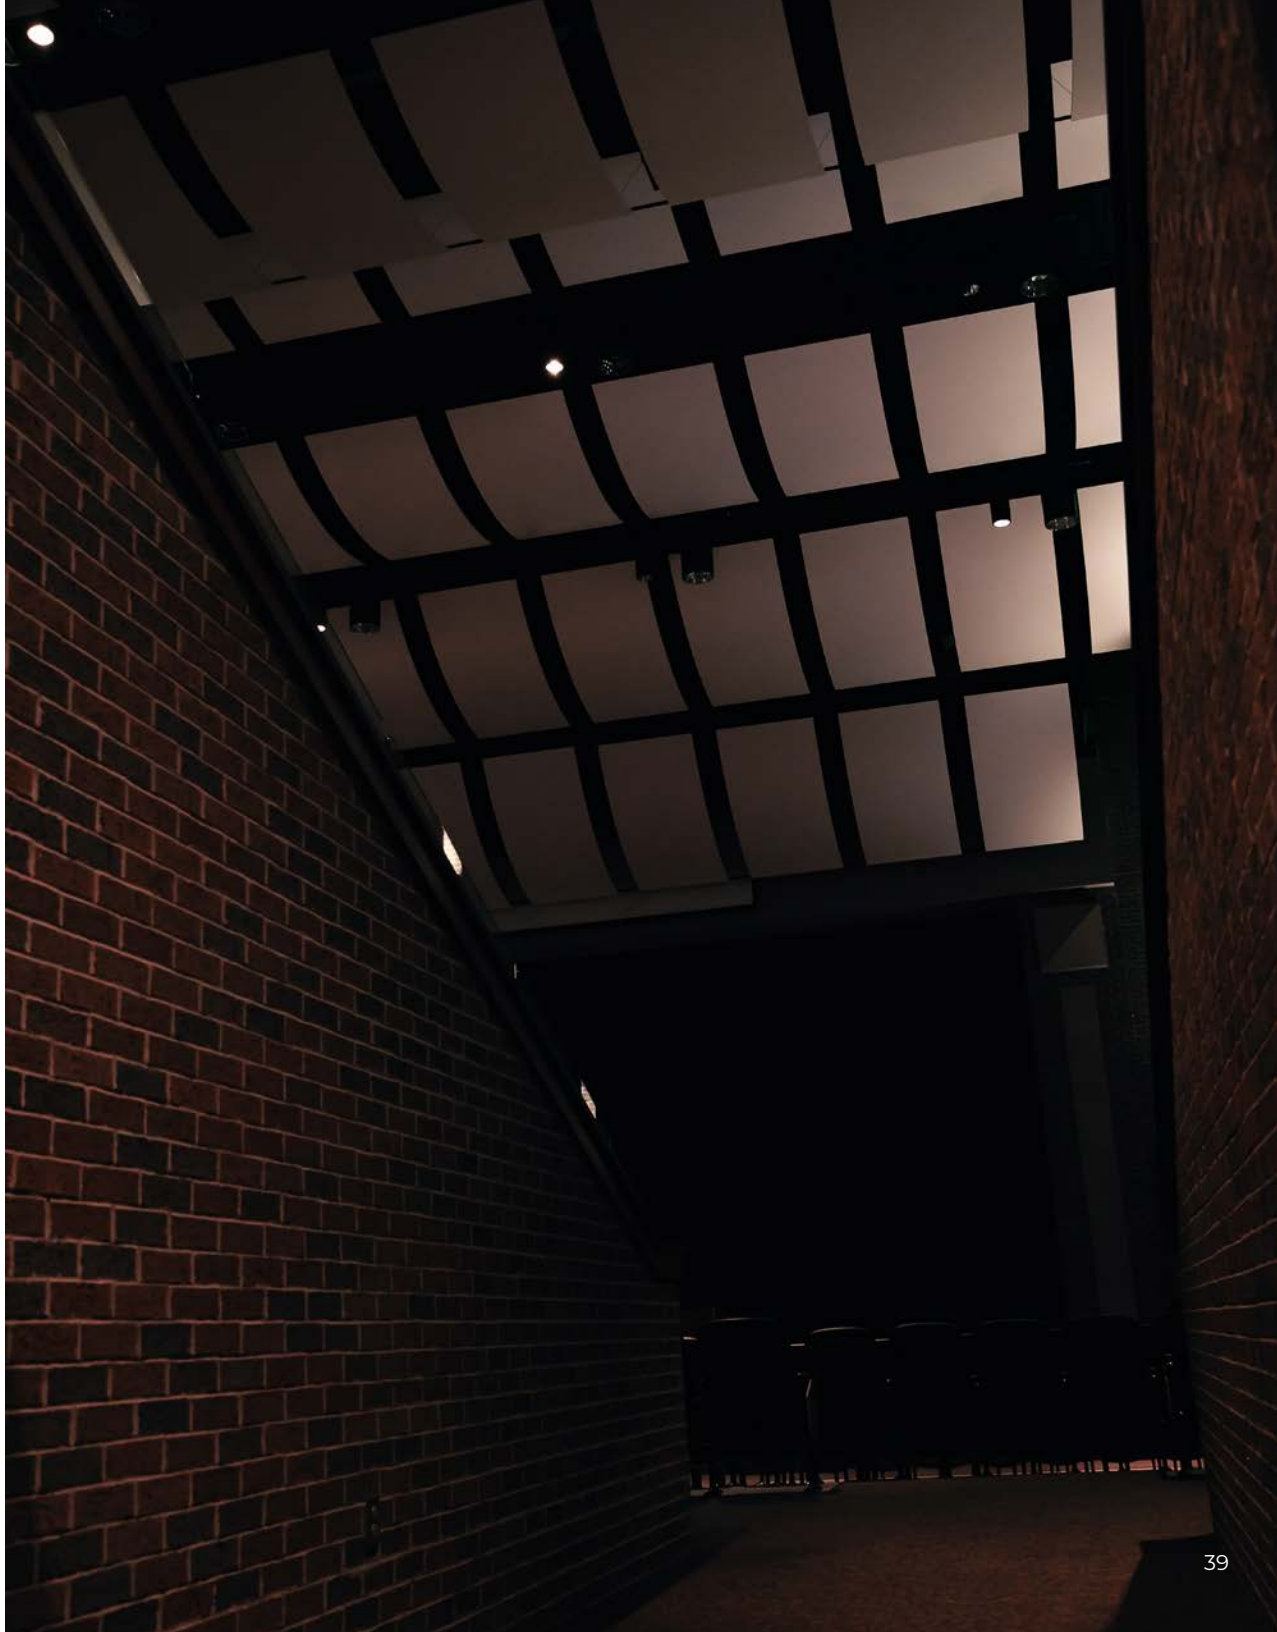

# Riverside School

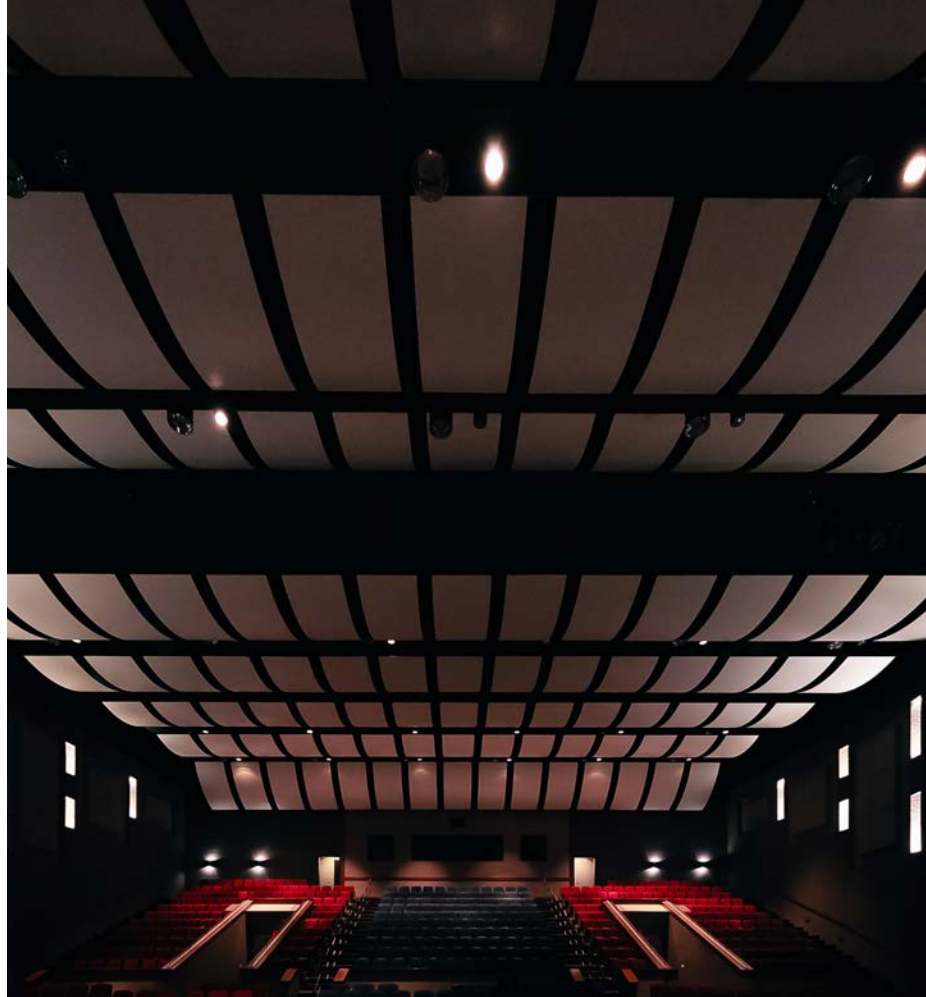

**Product** ▶ Cloud reflectors | Paint

New Dimensions

**Mounting** ▶ Acoustical Anchors

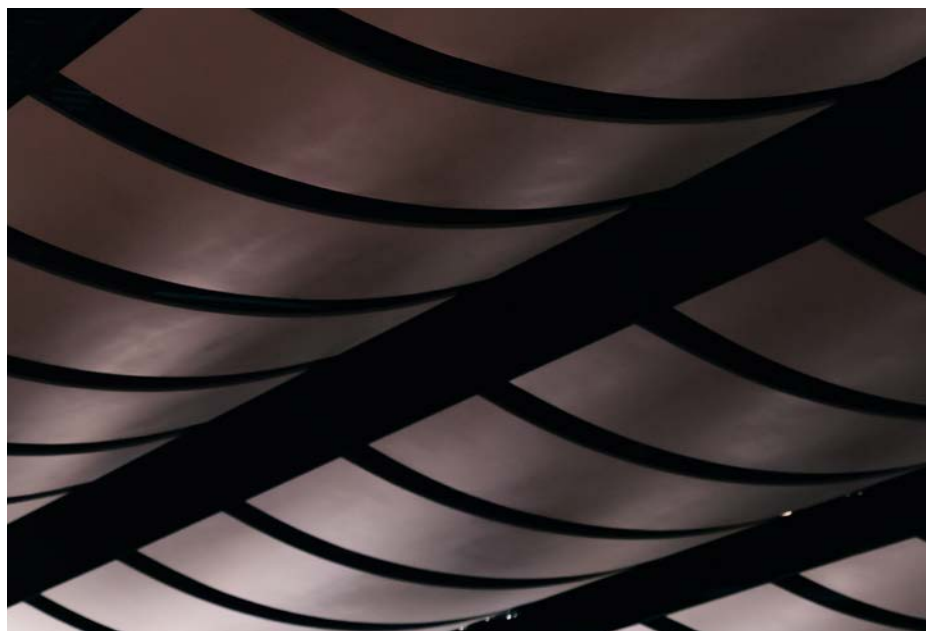

**120 curved ceiling reflectors fill the ceiling of this performance space, spilling up from the stage.**

Relying only on ambient lighting, the soft white finish gently bounces both light and sound to where they need to be.

# Huntington Center

**Product** ▶ Eurospan | Ceiling

**Finish** ▶ Optic White

**Mounting** ▶ Perimeter track

Home to the Toledo Walleye, and a frequent stop for the Conwed team, this stadium created box seats with Eurospan ceilings to make game-time conversations intelligible.
