

Wall Panel

Conwed Panels are reliable, all-purpose acoustic solutions. Capable of multiple levels of durability, highly-customizable finishes, and mounting options, this product is suitable for schools, auditoriums, theaters, offices, and libraries: anywhere noise control is needed.

Mineral Core

TK/AC

Mineral Core products are a tackable solution for environments that don't need as much noise absorption per square foot as other Conwed solutions, but still retain the sharp looks and finish of Conwed's fabric-wrapped products.

Core construction

High-density mineral board for acoustic performance. Surface is completely adhered with a custom fabric, wrapping around to the back for fully-finished edges.

- 1. Mineral board
- 2. Fabric finish

Acoustic performance

The NRC of the products are determined from an average of sound absorption coefficients, obtained from tests conducted according to ASTM C423 procedures in an NVLAP accredited laboratory.
